Yatendra Pal Singh

Editorial

I am very glad to present '*Pahal Horizon*' before *You* with the aim to contribute to the society as well. Life is very simple if one goes straight right with honesty, sincerity and disciplined mind. The same is responsible for the success. Ethics, the *forgotton word* in the present scenario, now becomes essential to live a rich and contented life. Law can't be find everywhere but Ethics. The combination of both can bring the example of a perfect Democracy and well established State. It is our duty to follow the Law and Respect the norms of the Society. Where Law delimits itself, Ethics gets ready to work with no boundary limits. Thus the balance can be made between the two for establishing Democratic and Welfare State. The MDGs, in beginning, were described through Ethical way using the word '*Should*' but the recent alteration 'Have to' in place of 'Should' shows the glimpse of Law; it left no option except following the Objectives. In the same way, we for acceleration in life, have to change 'Should' with 'Have to' from our life to pursue the aim because an aimless man is just like boat without rudders. Similarly today, there is a great need for reform in Education System too. Through this Research Journal we don't try to claim that we are Reformer, but we can be the Changer. Hoping this little effort can Accelerate Progress in the field of Social Sciences, Humanities and Management.

Having faith in Supremacy, It can be said that "*Not mere Thoughts but Work*" is the 'Success Mantra' of Life.
